First of all wishing you a very happy Diwali & Prosperous year ahead. Coming to this edition of the Elscint Ahead Newsletter, the first news is about a recent supply to Norway to an customer who has more than 24 feeders across his various factories in Europe. While the second one is the appointment of a Technical Sales Representative for East Europe. You can download the [pdf version](#) of this newsletter as also the back copies of the [Elscint Ahead Newsletter](#).

Elscint exports another set of 4 Vibratory Bowl Feeders for rollers to Norway

[Elscint](#), recently manufactured and exported a set of four vibratory bowl feeders to Norway. It was for an old customer of Elscint, who has been purchasing similar bowl feeders from Elscint since 2012 on a regular basis. These were for feeding rollers having diameter 9 mm x 15 mm length as well as rectangular rollers. The orientation was axial / lengthwise and speed required was 40 parts per minute. Elscint achieved a speed of 450+ parts per minute. The output was provided in a tubular chute. Proper overflow was provided in the bowl ensuring proper feeding. The equipment was sent by air freight to the customers works to reach him much before the expected completion date. In fact, these were the 24th such feeders supplied to the same company along with its sister companies in other countries of Europe. The high performance Elscint vibrator drives make such high speeds possible along with the easy tooling process followed. You can watch the [video of this bowl feeder](#).

New Technical Sales Representative for East Europe

Elscint has appointed a new sales representative for Eastern Europe, covering countries like Poland, Czech Republic, Slovakia, Slovenia, Croatia, Serbia, Hungary, Romania, Bulgaria, Latvia, Estonia, Lithuania etc.

Artur Ryback
TN-Elektronik Sp. z.o.o.
ul. Aleja Armii Krajowej 61, Bud: C1.4/7, 50-541
Wroclaw, Poland
E-mail – artur@elcintautomation.com
Website – www.elcintautomation.com

TN-Elektronik Sp. Z.o.o is a reputed company in Poland which already provides a lot of solutions to machine builders and Elscint vibratory bowl feeders would be a perfect addition to this range.

Though based in Poland, Artur, who has more than 20 years of rich experience, would be looking after the complete East European region providing Elscint solutions to various customers. This is an excellent opportunity to have a local person to speak and interact with.

Elscint is a well established name in the Indian market in the field of vibrating equipment and since the last 15 years has been steadily penetrating into the East European market for bowl feeders. Buying a bowl feeder from Elscint has got the twin benefit of not only getting a quality product, having CE approval, thus conforming to the stringent European safety specifications but also the advantage of much lower delivery times as compared to other makes from Europe. Further, Elscint has a very fast turnaround time and can provide quotations in less than 24 hours!
